

Point C – Main Square

You are standing at the main square in Hodonín. The square is the centre of each town, there are usually many shops, restaurants, bars and there take place various social and cultural events. There is usually a town hall there, too. The town hall in Hodonín was built in 1904 in the Art Nouveau style. Now divide yourselves into 2 groups – the drawers and the explorers. The drawers will try to draw the town hall of Hodonín, the explorers will explore the square. (Of course you can also all draw and then explore the square together.) Your task is to find out what kind of shops and services there are at the main square in Hodonín and compare the design and functions of the main square in Hodonín with the main squares of other partner towns.

Point I – Ice Stadium

Our meeting in Hodonín focuses on sports and games. You are now standing in front of the ice stadium where ice hockey is played by kids, teenagers and adults and where kids and teenagers do figure skating too. People also go skating here at the weekends. Ice hockey is a very popular sport in our country. Which sports are popular in your countries? Do you know any famous sportsmen from your countries? Which sports are they good at?

Point R – Railway station

You are now standing at the railway station in Hodonín. The railway going through Hodonín is one of the oldest ones in the Czech Republic. The first train went through this station in 1841. This historical railway connected the cities of Vienna (Austria) and Krakow (Poland). Your task is to find out how much a train ticket from Hodonín to Prague is.

Point S –Statue of TGM

You are now standing at the statue of the most famous person born in Hodonín – Thomas Garrigue Masaryk. He was the founder and the 1st president of the Czech Republic. He is one of the most important personalities of our history and in almost every Czech town there is a square, the main street or a school named after him. Discuss famous personalities of your countries.

You can also have a look at one of the most beautiful buildings in Hodonín here – it is the seat of the Gallery of Fine Arts.

Your next task is to find the Czech national tree somewhere close to you. Draw its leaf or branch and talk about national symbols of your countries – they are often trees, flowers or animals.

Point M – the Morava river

You are standing at the bank of the Morava river that makes here the border of the Czech Republic. During the years 1918-1992 we lived in a state called Czechoslovakia. In 1992 the two nations (the Czechs and the Slovaks) decided on the division of the state and it happened in peace which we are very proud of. Since 1.1.1993 there goes the border between the Czech and the Slovak Republic in the middle of the Morava river. Do you know any other examples of border rivers from your states?
